

# RAZANADRAKOTO

## Vatosoa Sedera

### PROFILE

Student in Computer Science, Web and Software Development for 3 years at ASJA University. I am passionate about technology, automation and I am also motivated, hardworking and ready to learn new skills to contribute to the success of my studies.

### PROJECTS

- CV creation platform (Django): site allowing people to easily and quickly create CVs with various themes.
- Local Cybercafé management platform (PHP): time management, prices of connected people.
- Pharmacy Management Platform (PHP): management of drug stocks added and sold with a visualization graph over time (ChartJS).
- Parent school tracking platform (Django, React, TailwindCss): Digital correspondence book to track absences, grades, children's homework and payment system, with a messaging system between parents and teachers.
